

The online system to help finance professionals pass exams and maintain CPD

"I'm sure I would not have passed exam without the bank of questions!
Anyone interested in these exams should register and use your service."
Helen Lupton, Ludlow & Co

"I would just like to say that I think the Wizard Learning site is excellent,
and I am hoping it will help me get to Chartered status."
Fiona Sharp APFS, M2 Finance4women

"I passed mainly due to Wizard Learning. I have recommended you to a number
of colleagues, and IFAs already; I think your service is brilliant. The part I liked
the most was if you got a question wrong it directed you to the part of the
syllabus that was relevant."
Graham Cater, Legal & General

"Passed exam, could not have achieved this without Wizard Learning.
Thank you so very much."
Phil Rapier, AWD

Who are we?

- *Highly experienced professionals who understand how to help you pass financial planning qualifications and improve your professional development.*

We are market leaders in providing online training and assessment services within financial services providing both a web-based system and the training content. Our finance and web-based skills also combine well to provide tools such as financial calculators and tax tables for inclusion on websites.

In addition to a wide range of website design and development services, we also supply finance questions and training material for clients' own training and assessments systems.

Qualified to the highest standards

We have a number of finance professionals working on our training and development material headed up by **Mike Goldsmith FPFs Chartered Financial Planner** and **Cris Glasgow FPFs Chartered Financial Planner**.

What do we offer?

- *An internet system allowing you to practice exam style assessments at times to suit you along with instant results helping you to identify areas that need further revision.*

Wizard Learning has been specifically designed to help financial services professionals not only pass relevant regulatory exams, but also assist those who already hold such qualifications maintain and update their knowledge in accordance with the latest developments.

Full CPD verification

One completed Wizard Learning online course using multiple-choice questions would provide a minimum of 6 hours CPD. For example, this could easily meet the CII's computer based training CPD requirements (per subject).

You are able to print out your own verified CPD certificate stating all assessments carried out, estimated hours of CPD learning and average results for your own records and to enable you to provide appropriate proof to your employer or professional institute as and where necessary.

Just launched

- *Online case studies and practice exams for CII Diploma and Advanced Diploma in Financial Planning courses.*

Case studies (3 per exam subject) come complete with an associated bank of multiple-choice questions. They allow revision of a wide range of learning outcomes in considerable depth.

The practice exams are an exciting new development. They enable you to complete online exam style papers using written answer format. One paper is self marked whilst the other will be marked independently by a subject matter expert from our bank of experienced markers. Ideal revision for these types of qualifications.

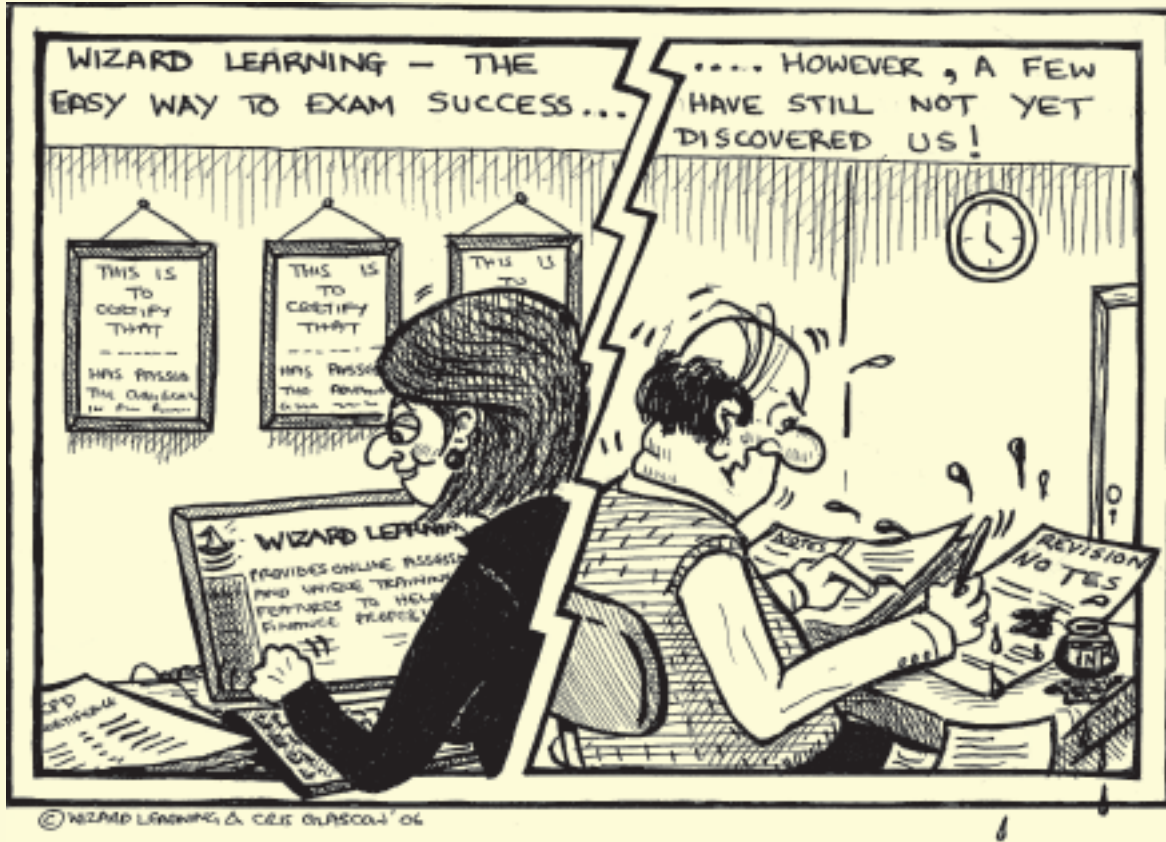

- *A monthly CPD news and assessment feature with associated questions. A must for staying up to date with industry developments.*

Corporate customers

In addition to the services already mentioned, corporate customers can benefit from the flexibility of the Wizard Learning system. Customised training features that Wizard Learning could help with include:

- Full training portals branded as your own
- Assessment tests for existing employees
- Recruitment assessments for prospective employees
- Assessor marked typed papers
- Questions banks
- Original authored revision material

Competitive prices in all areas
