## **WIZARD LEARNING LAUNCHES FINAL FINANCIAL PLANNING ELEMENTS**

Following the great success of our Practice Exam Packages (PEP) for CII Diploma subjects, we are delighted to introduce our CF5 Integrated Financial Planning PEP and CF4 Retirement Planning text revision course.

The launch of these final two components completes our online product range consisting of 10 products for the five subjects (CF1, CF2, CF3, CF4 and CF5) that make up the Chartered Insurance Institute's (CII) Certificate in Financial Planning.

The CF5 practice exam package enables users to complete three full practice exams. Two of these are self-assessed but the final exam can be submitted to a qualified tutor for marking and feedback is given on key technical areas as well as exam technique. This has proven to be a unique and really useful feature to users of our Diploma and Advanced Diploma based subjects and enabled many to pass first time.

Our text based courses include a number of specialist subjects. As well as receiving online access to a full set of study notes, purchasers will have the opportunity to complete revision questions on each section, a full final revision assessment, a case study with questions and a final mini exam. The package is flexible enough for learners to concentrate on either specific areas or the whole range of topics and instantly assess their knowledge online.

### **Mike Goldsmith, managing director at Wizard Learning, commented:**

"Both our study text courses and practice exam packages have proved incredibly successful and we are delighted that we are now able to offer a full range of learning materials for the certificate exams. We are constantly adding to our product range as a result of increased customer demand and there are many more enhancements in the pipeline."
