

FELDER AND SILVERMAN'S INDEX OF LEARNING STYLES

Sensory learners like solid, practical, and functional information. They seek facts & procedures.

Intuitive learners like concepts, innovation & theory. They seek meaning.

Visual learners like pictures, & diagrams. They seek visual representations of information.

Verbal learners like to hear or read. They seek explanations with words.

Active learners like to be hands on & try things out. They problem solve best in a group environment.

Reflective learners like to think things over, to evaluate, to analyse. They problem solve best on their own.

Sequential learners like organised information. They put together the details in order to see the bigger picture.

Global learners like a systematic approach. They see the big picture first & then fill in the details.
